

Did You Know?

1. America produces 154 million tons of Garbage a year.
2. Americans spend 10 billion dollars a year to dispose of their trash.
3. Americans produce enough Styrofoam cups each year to circle the earth 426 times.
4. It takes a aluminum can 500 years to decompose.

Did You Know?

1. Over 3 million tons of lawn clippings go to the landfills each year.
2. Americans throw away enough used oil to fill 120 supertankers.
3. The average American home generates 15lbs. of household hazardous waste each year.
4. It takes an entire forest (over 1/2 million trees) to make all the Sunday newspapers a week.

Solutions!

1. Buy products that are recycled.
2. Repair and reuse when possible.
3. Recycle all aluminum cans.
4. Use durable utensils instead of disposable.
5. Compost yard clippings.
6. Take used oil to a proper recycling center.
7. Recycle all paper and newspaper.
8. Just Remember **Reduce, Reuse, and Recycle!**

The 3 R's of Recycling

Reduce:

- Buy products that don't have a lot of packaging.
- Use cloth shopping bags.
- Use rechargeable batteries.

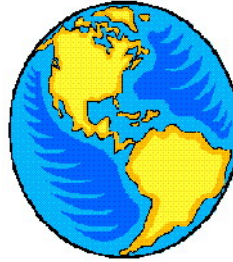

Reuse:

- Print or copy on both sides of paper.
- Compost yard clippings.
- Donate or sell unwanted appliances or items.

Recycle:

- Buy recycled products.
- Recycle used motor oil and car batteries.
- Recycle paper, cardboard, plastic, glass, and aluminum.

Make a Cleaner tomorrow....
